### De Fighter – and the Institute

The Rotterdam opera ensemble "Intorno" has received the boat "De Fighter" as a present from the Antwerp harbour company URL.

The Danish Cultural Institute has contributed to making this happen, and the institute is now, together with the Opera ensemble, developing the boat to become a cultural ship. The Institute has also moved in on the boat and have an office there. The first event held on the boat was the Dutch launch of the big Alter Ego project in April, and the future will see many more interesting cooperations.

### Next Study trip:

The municipality of the Hague is visiting after-school care centres in Denmark on 17.-19. June 2008. The purpose of the trip is to inform how schools and after-school care centres collaborate in Denmark and to find a possible solution on how to disseminate the concept in the Netherlands.
